

MUSA MUSA K

Frontend Web Developer

Profile

A dedicated web developer with a strong focus on frontend technologies. I specialize in building responsive web applications using React.js, Next.js and other modern tools.

Projects

2024

Creatorspace AI

Frontend Web Developer

- Built an Artificial Intelligence powered tool to make content creation easier and faster. This project was built using Next.js and Tailwind CSS
- <https://creatorspace.vercel.app>

2024

WatchWave

Frontend Web Developer

- Built a movie app with search features, TV series, favorites, light and dark mode and more. Movies were gotten using the TMDB API. The project was built in React.js and Bootstrap 5
- <https://watchwavetv.vercel.app>

2024

Virtuals Build

Frontend Web Developer

- Converted a Figma design into plain HTML and CSS. The design is very responsive and shows my attention to detail during development of designs
- <https://virtuals-build.vercel.app/>

2024

Portfolio

Frontend Web Developer

- Built my own portfolio website using Next.js and Tailwind CSS. It tells about me and showcases all of my projects. You can also contact me easily through email from the site
